Subject: CSL and Scottish Cup match returns

Cricket Scotland will be using a system known as CricketStats for the submission of match returns from clubs in respect of Cricket Scotland League and Scottish Cup matches in 2013. This is an online results system which will display all scores and league tables with the scorecards also being replicated on CricketArchive.

Clubs are reminded that, in accordance with CSL Rule 13 (b), match summary returns should be submitted by **9.00p.m.on match days**. Full scorecards should be submitted by **5.00p.m.on the Wednesday** following the match in accordance with CSL Rule 13 (a).

The login to use for CSL and Scottish Cup is:

<http://www.cricketstats.org.uk/csl>

Entering your team name (not case sensitive) is self-explanatory with the password initially 'password' (case sensitive) which you can then change as you wish.

Please note that the login for the cup is your club name + 'Cup', e.g. 'Aberdeenshire Cup'.

Full instructions for using the system can be downloaded from:

<http://www.cricketstats.org.uk/csl/instructions.pdf>

This can also be accessed once you log in by clicking on the 'INSTRUCTIONS' button on the home page.

We would suggest that your clubs ensures that at least three of your first eleven players in addition to the club scorer are familiar with the process to ensure that match returns are submitted timeously and do not depend on one person being available.

If you have any queries please contact Peter Kingsbury (the man behind the system) at peter@cricketstats.org.uk. He will certainly be able to provide more assistance than the writer.

Regards

Ramsay
