

### Schools programme, 2020

The club coaches would, in any "normal" year be coaching in a number of local schools, delivering coaching programmes to girls and boys of both primary and secondary schools ages. Much more about the club's schools and community work can be found on the [In the community](#) page of the website. This year however, the coronavirus COVID-19 put paid to any community coaching after the commencement of "lockdown" in March. As such, established partnerships with local primary schools, anticipated to continue alongside the long-standing partnerships with Shawlands Academy and The High School of Glasgow, were put on hold. The hope is - in whatever the "new normal" looks like - that the club's schools programme can restart again in some guise in 2021.
